Scale (1 - 5) 1 = Poor 5 = Excellent

The following are a selection of highlighted responses from course evaluations:

- Garrett was an awesome TA. He was extremely passionate about what we were discussing and he would always be willing to answer questions.
- Garrett was great! He always answered my questions and responded to emails quickly. I thought he was an amazing TA.
- Very helpful TA who really takes his time with the material and cares about helping you to succeed.
- Garrett is a very good TA, who is passionate about the topics we are learning in our course and is able to teach the material very well.
- Garrett Shost was a very kind and knowledgeable TA,... and if I needed help from Garrett he was always very accommodating to help me get to where I needed to be.
- I have had a fantastic learning experience under Garrett's teaching. He explains course material clearly and challenges us to apply material in a way different from lecture. His concern for each student's learning is evident in his responsiveness to student questions. I would highly recommend Garrett for any future teaching position.
- He is very friendly and approachable for questions and always very helpful on explaining concepts. Definitely well-qualified to be a TA and one of the best I've had.
- Garrett was very helpful in class and always provided great explanations for the more complicated topics. It was also helpful when he added extra notes and examples to demonstrate the topics. However, one of the most helpful parts of discussion sections was when Garrett went through each question on the chalkboard and drew out each graph and wrote out each equation, that way it was very easy to follow the solutions to the problems.
- Did a great job! Positive and enthusiastic about the material. Clearly knows what he is talking about.
- Very approachable and gives helpful explanations.
